25 January 2008

The “Pick Me Up” team has turned their dream into reality. In 24 hours, the Pick Me Up team did the impossible- 42 of them came together to write their real-life stories and launch a book. Their website, www.pickmeup-book.com, has received more than 11,000 hits. In 3 days, they have sold over 2000 books.

This team has the capability to fulfill their wishes. Now they want to fulfill others' wishes. This Saturday, 26 January 2008, a child with life-threatening disease will have her dream fulfilled. For this child who does not have the capability to fulfill her own dream, having her dream turn into reality means a lot to her.

The child's name is Nathalie (names have been changed on request by parents). She is 11 years old. Currently, she is battling Ewing Sarcoma (bone cancer), She has a passion for writing and can write good essays and stories. Having her dream turn into reality will give her renewed hope and strength to fight her illness. The “Pick Me Up” team wants to bring forth a message of hope, inspiration and possibility for everyone. We want to remind people of their dreams, and to encourage them to pursue them now. Great things can be accomplished when we set our hearts to it!

Nathalie's dream is having her room makeover in High School Musical theme, at the cost of \$5500. Besides having her room painted and accessorized according to the theme, she will be given a guitar-shaped bed and a long piano table. What Nathalie did not know is that her room would be turned into a make-believe private cinema, where there would be surprise carts of candy floss, hotdog and popcorns waiting to serve her.

Representatives from Make-A-Wish Foundation, Representatives from “Pick Me Up” -Mr. Kelvin Lim and two writers would be at her room to spend the special day with her.

This would be the first wish granted with the proceeds of “Pick Me Up” book. The “Pick Me Up” team continues to spread the message of turning dreams into possibility to the world.
